

Canada's Emerging Growth Companies

(Whitby, Ontario) For immediate release September 2, 2009

We are most excited to announce that Predictive Success Corporation, Canada's fastest growing assessment and consulting company has made the "short list" towards nomination to Profit Hot 50 ranking. Profit Magazine interviewed our team in June and researched our growth, success and path towards success. Winners will be announced in 2 weeks in Niagara Falls, ON.

From Profit Magazine:

It takes a generous amount of business savvy and a whole lot of guts to build a sustainable business today. Even long-established firms risk being paralyzed by rapidly shifting business trends, a lofty loonie and an increasing talent shortage. But the leaders of PROFIT's 9th annual HOT 50 ranking of Canada's Emerging Growth Companies have proven that they're not afraid to take risks; nor is there much that can hold them back. They've not only found the right recipes to grow their fledgling firms in the face of uncertainty, they're thriving in it. Companies across Canada are pre-screened and then researched before they make it to the short list.

This next generation of entrepreneurial stars are less than five years old but shows the business smarts of companies many times their age. They have achieved [average two-year revenue growth](#) of 756%, with all of them at least doubling their sales over the past two years; five of these winning businesses have recorded growth rates in excess of 2,300%. And despite the up-front costs and market anonymity young companies endure, fully 74% of this year's HOT 50 [turned a profit](#) in their most recent fiscal year. [What's their secret?](#)

Predictive Success thanks its partner at BDC (Business Development Bank)

The PROFIT HOT 50 ranks the top 50 young businesses in Canada by 2-year revenue growth. We thank Mr. Michael St Armant from the BDC Sub Debt Financing Group in the Toronto offices for nominating us for this award based on our last two years of growth. Predictive Success did get through the due diligence phase towards the finalist list in this "top 50" award. Mike has truly been a partner in our success.

The final award winners will be announced September 10 in Niagara Falls and the team at Predictive Success are excited to be part of this process by Profit Magazine and honored to have been considered.
