

Scholarship Program

National 2009 Scholarship Program - John Watson Leadership Award...Zachary Mossman

The Predictive Success Corporation, one of Canada's leading human capital management & assessment firms, is pleased to announce the winner of the 2009 John Watson Scholarship Award to **Zachary Mossman** of Bradford, ON. This award has been established to recognize and foster outstanding character development, creative leadership, active citizenship, and academic consistency in students entering post-secondary education. Winners must be associated with Predictive Success and Zachary's father, Chuck Mossman is a certified PI analyst and VP Sales & Marketing at K-Line Group of Companies.

This scholarship will honour clients of Predictive Success and or Certified PI® Analysts as we share the importance of education. Zachary is the first recipient of the award and will win a \$3,000 prize from Predictive Success Corporation. He received the award at a dinner reception on August 12 in Whitby, ON. We were proud to have John personally present the award to Zachary and his parents Chuck and Toni with David Lahey, President of Predictive Success. We were happy to also have Mr. Omar Benidir, President of Executive 2000, who created the concept to honour his long-time friend John Watson, in attendance personally.

About Predictive Success Corporation

Predictive Success Corporation, a federally registered incorporation, and is a recipient of the Ernst & Young Entrepreneur of the Year nominee for 2008. The company has also been selected to the PI Worldwide Founders Club for revenue growth and client excellence across Canada in 2007, 2008 and 2009.

About PI

People Smart. Results Driven.™

Created in 1955, the Predictive Index (PI) survey is a managerial assessment tool that provides insight into the natural workplace behaviors of prospective and existing employees – resulting in improved hiring decisions, team performance, overall communication and workforce productivity. The Predictive Index (PI) process improves effectiveness and productivity across all levels of your organization. As a practical, reliable indicator of workplace behavior, it helps you make sound, people smart decisions with the best results for the company and for the people themselves.
