Predictive Success Corporation celebrates reaching exciting milestone of 1000 Clients!

TORONTO, Ontario— Predictive Success Corporation (PSC) is pleased to announce it has reached 1000 valued clients in its 22/23 Fiscal Year. As a compliment to this achievement, Predictive Success Corporation was recognized with a new award, the Most Valuable Player Award, which represents the highest total billings in the entire global Predictive Index Network. This would not have been possible without the hard work of our entire team across Canada and the support and guidance from our fearless leader, Predictive Success Founder and CEO, David Lahey. We proudly hold an 86% retention rate of our existing clients, and the success of these organizations is our top priority. Our clients come from a vast range of industries, including but not limited to Professional Services, Transportation, Hospitality, Manufacturing, Retail, Healthcare, Government, Finance, Technology, Construction, and Start-ups.

During this year of operations, PSC has created and nurtured 30 full time jobs, collected over \$10 million in HST tax and donated over 300 hours of pro bono work to non-profits. Our team has trained over 10,000 leaders in Predictive Analytics through the Predictive Success Academy, including doctors at several North American hospitals through the ARTES Leadership Program.

As we continue to grow, one of our core beliefs is in giving back. To date, Predictive Success has donated over \$800,000 CAD to Canadian charities through The Predictive Success Foundation mission to support the communities we serve by aiding in health, research and education initiatives through direct source donations. These donations include but are not limited to a \$150,000 CAD commitment to the Princess Margaret Cancer Centre, thousands of dollars in child sponsorships through Chalice, and ongoing activity sponsorships through Heart & Stroke, Walk for Good and Jack.org. In addition, Predictive Success received an award in January 2023 from Ronald McDonald House Charities for it's 10-year contribution in helping aid families in need, with total donation amount reaching \$60,000 CAD.

We thank the 1000 valued clients we have the privilege of partnering with each day, our team members, and The Predictive Index headquarters for their unique roles in our success in reaching these incredible milestones.
