HIGH PERFORMANCE SERIES

Predictive Success Academy Core Series

Drastically improve your team's performance. Build teams that trust each other, communicate, and hold each other accountable—so you maximize your bottom line. No team is effective without trust and communication. With the help of an expert facilitator, this workshop helps you build a self-aware and trusting team.

This workshop helps participants establish an understanding of each team member's motivations and work style, and learn how to uncover team dynamics. Through this catalyzing reveal, your team will become a unit, building lasting cohesion and collaboration habits. Sessions are led by management consultants with an average of 20 years' experience who are experts in the discipline, in an accessible, easy-to-digest format. This workshop turns uncertain team performance around by mapping a group's natural strengths to its short-term goals, exposing areas of misalignment and providing recommendations to address them.
