

FOR IMMEDIATE RELEASE— March 30th, 2026

Top 100 Most Thriving Places to Work / 2026

C100 awards.

Toronto, ON — March 30th, 2026, Predictive Success Corporation is proud to announce that it has been named a winner of the **2026 Culture 100**, presented by Maya. This national recognition honors the top 100 companies across North America that are building exceptional workplace cultures.

The **Culture 100** awards are based on a rigorous selection process that included **thousands of company applications and insights gathered from interviews with more than 20,000 employees**. Predictive Success was selected as **one of only 100 winners across 22 different industries**, recognizing organizations where employees are highly engaged, leadership is trusted, and workplace culture drives performance.

“This recognition is incredibly meaningful because culture is not a program at Predictive Success. It is how we operate every day,” said David Lahey, CEO of Predictive Success. “We believe that when you put people first and give them the tools to understand themselves and each other, performance follows. This award reflects the team we have built and the values we live by every day.”

Predictive Success helps organizations hire smarter, develop stronger leaders, and build high-performing teams using data-driven talent insights through The Predictive Index. As a company that helps other organizations build better workplaces, being recognized for its own culture is a significant milestone and a reflection of the company’s commitment to its people, clients, and partners.

“This award belongs to our entire team,” Lahey added. “Culture is built in the way we communicate, the way we support each other, and the way we show up for our clients. We are proud of the culture we have built and even more excited about where we are going.”
